

You're invited to the

Affiliate/Attorney Social

Please join The Florida Bar Environmental & Land Use Law Section members and affiliate members for a reception at Fly Bar & Restaurant - Tampa. The purpose of this social is to provide a networking opportunity to section members and affiliates and their guests. Topics of discussion will vary, but will include the latest environmental and legal issues facing our industry.

Thursday, January 12th

Time: 5:00 to 7:30

Place: **Fly Bar & Restaurant - Tampa**

Address: 1202 N. Franklin Street

Phone: 813-275-5000

(Map Attached)

Please RSVP to:

Collins Law Group was formed with the intent of empowering and enabling individuals in the protection of Florida's environment through the fostering of personal relationships, community service and quality legal work. Collins Law Group provides personalized and professional legal representation in all matters of environmental and land use law and policy both locally, throughout Florida, and in Washington, D.C. We are located in Tampa, Florida. Please visit us at www.collins-lawgroup.com.

ARCADIS is an international company providing consultancy, engineering and management services in infrastructure, environment and buildings, to enhance mobility, sustainability and quality of life. ARCADIS develops, designs, implements, maintains and operates projects for companies and governments. With more than 13,500 employees and more than \$2 billion in gross revenue, the company has an extensive international network that is supported by strong local market positions.

HSW Engineering, Inc. is an integrated earth science and engineering firm providing proactive, innovative, and cost-effective solutions for Environmental, Water Resources and Civil/Land Development projects. HSW has distinguished itself as a leader in the environmental industry by adhering to its philosophy of strategic long-range management of environmental concerns. This successful philosophy revolves around a project organizational structure that always includes one of the firm's principals to maintain strict quality assurance, effective communication and senior leadership. HSW has successfully applied innovative strategies to technical and regulatory issues nationwide, resulting in substantial cost and time savings. This approach assures our clients of the best possible service and value and is a key reason that over 90% of our work comes from previous customers. This same approach has also been integrated into our Water Resources and Civil/Land Development Practices.

HSA Engineers & Scientists, as a leader in engineering consulting, design, construction and forensic sciences, has the resources and experience to help clients meet today's business challenges. We provide engineering and scientific consulting services to help you manage your risk and achieve your potential. HSA's multi-disciplinary services have evolved and grown through the broad range of needs that have been identified by our clients: private industry, commercial entities, the legal profession, government agencies, and institutions. Given the diversity of our consulting solutions, HSA has the ability to offer a true integrated approach to business issues that combines insight and innovation from multiple disciplines with a wide range of industry knowledge to help organizations excel anywhere in the world.
